PROFESIONAL EXPERIENCE

Quala S.A.   Bogotá, Colombia
Sr. Supply Chain Planner (Soups and Condiments)   12/2017 – present

- Responsibilities:
  - Guarantee the supply of finished product with the weekly scheduling of the production plants, the purchase and management of materials (MRP) and the correct execution of the launches of new products (Leading the forums with Research and Development, Marketing and Procurement).
  - In charge of capacity in the Short and Medium Term (Management of workforce and activation of capacity expansions in the plants in charge).
  - KPI's: % Non-assertiveness of inventory, % Out of stock, $ Loss of value.
- Responsible for the brands Dona Gallina, Ricostilla, La Sopera, Sasoned, Don Gustico, Del Fogón.
- Executed the planning of a splice of finished goods of Doña Gallina and Ricostilla in the Traditional and Modern Channel of sales. This project has a potential savings of +1000MM / year.

Supply Chain Planner (Powdered Soft Drinks)   02/2019 – 07/2020

- Responsible for the brands Suntea, Sabiyá, Bontea, Línea YA
  - Weekly scheduling of 9 production lines
- Guaranteed supply for the launch of the Gen project Sabiyá in a scenario of 100% machine occupancy and following the company's strategies.
- Achieved a decrease in the loss of value of the company by more than $ 800 MM COP, leading material consumption plans, reformulations and extensions of useful life.
- Plan a splice of all Suntea 1.5L in the Traditional and Modern Channel of sales. This project brought savings by more than 650MM / year.
- Guarantee the launch of Suntea Manzana Verde, Granadilla and Limon-Mandarino in their 1.5L, 4.5L and 9L presentations. All launches were executed meeting the Out-of-Stock goal of 3% with uncertainty with the sales forecast.

- Brands in charge: Gelatina Frutiño, Quipitos, Instacrem, Light Ya and Bon Ice.
    - Weekly programming of 15 production lines
    - In charge of planning 3 seasonal promotions per year.
    - Responsible for the demand planning process in Gelatina between march & august 2020 (S&OP process) to reduce time in the planning process (Supply and Demand) due the sales increase (> 80% sales increase between march and June 2020).
- Guarantee the correct execution of a project to change Gelatina machines ensuring the anticipated purchase of materials and production of the inventory for the 3-month shutdown.
- Plan the Monserrate project in which we achieved the historic sale of the Gelatina brand, aligned with the objectives of increasing the % market share.

SOFTWARE PROJECTS

Sudokuland (Play Store – Android)

I developed a native Android App called Sudoku that is published on the Google Play Store (https://play.google.com/store/apps/details?id=co.appengine.games.sudokuland). The app was developed with Java and I used SQL to store the Sudoku's table data. I designed the user interface and the logo and implemented Google Admob to monetize the App with Banners. I also include a payment system that allows users to acquire the premium version which unlock Insane level and remove the Admo Ads.
Repository (https://github.com/cristhiangomezm/sudokuland).
Technologies: Dagger2, XML, Google Admob, Android Studio, SQLite, Java.
